Wisconsin Surgical Site Infection Prevention Summit IV: Advancing Surgical Care Across the Operative Continuum

Presented by the Wisconsin Division of Public Health and the Department of Surgery, Medical College of Wisconsin

Date: Friday, October 28, 2016
Time: 11:00 AM—5:00 PM

Invited speakers:
William Ennis, DO, MBA, FACOS
University of Illinois Hospital & Health Sciences System, Chicago, IL

Maureen Spencer, RN, BSN, M.Ed, CIC
Universal Health Services, Inc., King of Prussia, PA

Gary R. Seabrook, MD, FACS
Froedtert Hospital, Medical College of Wisconsin, Milwaukee, WI

Location:
Kalahari Resort
1305 Kalahari Drive
Wisconsin Dells, WI 53965
Phone: 1-608-254-5466

Surgical site infections continue to be the most frequently reported healthcare-associated infection in Wisconsin, with more than a thousand patients suffering post-operative infections each year. Surgical Infection Prevention Summit IV will focus on the topics of post-operative wound care, what works and what doesn’t; a bundled (7S System) approach for improving surgical patient outcome; and how the surgical champion can affectively communicate with the C-Suite to enhance patient practices that improve surgical outcomes. The symposium will also review the current of status of SSIs in the State of Wisconsin, and finally we will review the Wisconsin SSI Prevention Guidelines as a supplement to the 2016 CDC/HICPAC SSI prevention guidelines.
Wisconsin Surgical Site Infection Prevention Summit IV:
Advancing Surgical Care Across the Operative Continuum

October 28, 2016 | Kalahari Resort | Wisconsin Dells, Wisconsin

Agenda
11:00 – 11:45: Registration
11:30 – 12:30: Light Lunch
12:30 – 12:35: Opening Comments:
   Jeffrey P. Davis, MD, FIDSA - Chief Medical Officer and State Epidemiologist for Communicable Diseases
12:35 – 1:00: “Update on SSIs in Wisconsin – How Are We Doing?”
   Gwen Borlaug, MPH, CIC – Coordinator, HAI Prevention Program, Wisconsin Division of Public Health
1:00 – 1:50: “Traversing the Options in Postoperative Wound Care - What Works and What Doesn’t”
   William Ennis, DO, MBA, FACOS – President, American College of Wound Healing and Tissue Repair, Professor of Clinical Surgery, Catherine and Francis Burzik Professor and Chief of the Section of Wound Healing and Tissue Repair, University of Illinois Hospital & Health Sciences System
1:50– 2:40: “A Pragmatic Approach to the Surgical Care Bundles - The 7S System ”
   Maureen Spencer, RN, BSN, M.Ed, CIC - Corporate Director, Infection Prevention, Quality Management, Universal Health Services, King of Prussia, PA
2:40 – 3:00: Coffee Break
3:00 – 3:50: “The Role of the Surgical Champion – Effective Engagement of Colleagues, Staff, and Institutional Leaders to Improve Patient Outcomes.”
   Gary R. Seabrook, M.D., F.A.C.S.— Professor & Chief of Vascular Surgery, Senior Medical Director of Surgical Services, Froedtert Hospital & the Medical College of Wisconsin.
3:50 – 4:20: Review of the Wisconsin SSI Prevention Guidelines as a Supplement to the CDC-SSI Prevention Guidelines
   Chuck Edmiston, PhD, CIC – Emeritus Professor of Surgery & Wisconsin DPH SSI Consultant, Medical College of Wisconsin, Milwaukee, WI
4:20 – 4:50: Collegial Roundtable (Q & A)
   Participants – Ennis, Spencer, Seabrook, Borlaug – Edmiston (Moderator)
4:50 – 5:00: Closing Comments
**William Ennis, DO, MBA, FACOS**, is the Catherine and Francis Burzik Professor of Wound Healing and Tissue Repair and Chief of the Section of Wound Healing Tissue Repair at the University of Illinois at Chicago and has been practicing wound care for 24 years. He founded, and is director of the first Wound Healing and Tissue Repair Fellowship in the United States, also at UIC. Dr Ennis is a founding board member and President of the American College of Wound Healing and Tissue Repair. Dr Ennis has published over 100 articles, abstracts and book chapters and has lectured throughout the world on wound care and vascular diseases. His current research interests include microcirculation, healing outcomes, health economics, and regenerative tissue mechanisms.

**Maureen Spencer, RN, BSN, M.Ed, CIC**, is the Corporate Director, Infection Prevention, Universal Health Services, Inc., King of Prussia, PA. Maureen’s career in Infection Prevention has spanned a period of over 40 years. She has published 90 papers, book chapters, abstracts and newsletters encompassing the broad practice of infection control. She has assumed multiple leadership roles in many professional societies, organizations and agencies including APIC, the American Hospital Association and the Massachusetts Department of Public Health. Her multiple research activities include the development of interventional risk reduction strategies for CLABSI, CAUTIs and surgical site infections. Her current focus is the development of an evidence-based surgical care bundle (7S System) for the prevention of surgical site infections (SSIs).

**Gary Seabrook, MD, FACS**, is Professor & Chief of Vascular Surgery at the Medical College of Wisconsin and Senior Medical Director for Surgical Services at Froedtert Hospital. His responsibilities focus on structure design, systems and process measurement and improvement, and safety and quality oversight. Research interests include infections related to bioprosthetic implants and patients with diabetes. He is an advocate for standardized skin cleansing to reduce surface bioburden at the surgical site. Dr. Seabrook’s current professional and clinical focus is on the operating room environment including traffic, air handling, housekeeping techniques, patient flow and systems of communication – linking these factors to an organization’s ability to reduce the patient’s risk of a hospital acquired infection.
Conference Co-Chairmen

Charles Edmiston, PhD
Professor Emeritus of Surgery & Director,
Surgical Microbiology Research Laboratory
Medical College of Wisconsin

Gwen Borlaug, CIC, MPH
Coordinator of the HAI Prevention Program and
Bureau of Communicable Diseases Infection Preventionist
Wisconsin Division of Public Health
